## BtoB Event Agencies

Conrad Consulting is a full-service event organisation with 7 highly qualified staff members, playing an active role in this sector for 25 years. Organizing an event with Conrad has a great advantage: we take all troubles off your hands, from a to z. We support a system with interim briefings and evaluations. This way we can make adjustments during the process if needed. Leader of the event is 1 person; your first line of contact. We foresee a back-up contact, who also follows up on the event.
