

# Claridge Events

## Event Venues

A venue rich in history which has been restored and equipped with the best technologies. The Claridge will enchant the elegant phlegmatic and the hyper connected technophiles at once. It is a landmark building in the new European quarter in Brussels. Get inspired by the many years of success stories for the organisation of

your meeting, your reception or your product presentation. For over more than a century, the Claridge has been part of the events and celebrations which have been part of our history. The recent mutation towards a modern room reconnects with the actual demands of exclusivity and technological perfection.
